# The CCIG, your trusted partner.

Since it was founded in 1865, the Geneva Chamber of Commerce, Industry and Services (CCIG), has been at the service of Geneva's entrepreneurs. It is no less active in developing relations with its foreign counterparts and with the diplomatic representations.

## Market Focus ?

To this end, the CCIG has designed a series of Market Focus events for you, which we invite you to organize on our premises.

## Spotlight on your country

Market Focus is an opportunity to draw the attention of some 2,600 CCIG Members and to highlight your country's economic and entrepreneurial opportunities for Geneva-based SMEs and investors.

## A tailor-made partnership

Our Events and International Trade Managers will work with you to define the details of your event and customise every detail.

## Your programme

For your Market Focus, we recommend a dynamic, interactive format, details of which can be found in our General Terms and Conditions.

## Our services

Although you are responsible for drawing up the programme of the event, the CCIG will support you from A to Z: from providing conference rooms to promoting the event.
